STONESKIRT™
"The Ultimate Masonry Wall"

A Product So Revolutionary, it has Changed the Face of Manufactured Housing.

StoneSkirt is The Right Choice

When you investigate skirting, look for durability, longevity and distinctive design. Analyze various materials, inspect other established homes whose skirting has been installed for several years and talk to other homeowners. You will discover that your skirting decision is critical to your home's appearance and value. StoneSkirt adds a unique, lasting appearance to your home. With StoneSkirt your home becomes more inviting, more distinguished and more valuable.

The New Choice

StoneSkirt is a major breakthrough in manufactured housing, turning a historical problem into a remarkably attractive, timeless solution. The segmental concrete units are easy to install, will never need to be repaired or replaced and protect your investment for the life of your home. StoneSkirt is the ultimate solution that homeowners have been waiting for.

And, the Choice for Quality

Your home reflects warmth, comfort, personality and pride. You have chosen it with care, selected the site and made the commitment. Perhaps you have lived in the home for several years. If so, you know that one single, very important choice significantly affects your home's appearance and value... the skirting that surrounds your home. StoneSkirt's segmental concrete unit design is resistant to those factors that damage or deface most other types of skirting.

Very Versatile and Easy to Install

StoneSkirt can be easily installed on new or existing homes. Plus, when the terrain around your home changes - StoneSkirt changes, too.

The combination of lightweight units and patented I-Beam technology allows for a fast, easy and economical installation. StoneSkirt's mortarless design eliminates the need for expensive, trade labor.

Finishes and Color Choices

Available in a wide variety of textures and colors, StoneSkirt has the design appeal and aesthetic versatility you require.

Sandstone

Brown

Grey

Colors may vary by location. Actual color samples available by request.

StoneSkirt is Durable

StoneSkirt's is resistant to factors that damage or deface most other types of skirting.

- Damage from natural elements (wind, snow, hail)
- Abuse from equipment (mowers, string trimmers, snow blowers)
- Aging (twisting, bending, rusting)

StoneSkirt comes with a 20 year limited warranty.
